PURPOSE

A two-sided contract portal: our agent drafts from your templates, the customer redlines in their own portal, and both sides sign through DocuSign.

PROBLEM

Contracts bounce between inboxes until nobody knows which version is final, a changed clause slips through unseen, and old agreements can't be found.

IMPACT

Reading the other side's changes drops from 2–4 hours to 29 seconds, explained in plain English, and every signed agreement lands in both parties' history.
